DETAILED ACTION

Allowable Subject Matter

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent No. 6000832 to Franklin et al.

Franklin et al. disclose generating a secret key, a message authentication code (MAC), an authorization request message including the MAC, transmitting the authorization request over a payment network to an issuing bank and verifying by the issuing bank the received information. Franklin et al. taken either individually or in combination with other prior art of record fails to teach or suggest electronically converting said message authentication code into a pseudo expiration date as recited in independent claims 1 and 3, electronically providing said pseudo account number with a control field indicating one of a plurality of key-generation processes to be used to generate an authentication key as recited in independent claim 10, providing at least two different operating modes for forwarding in different manners said message authentication code with an authorization request having different fields, at least one of said operating modes for forwarding said message authentication code in an expiration date field as recited in independent claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
